*Shopping Cart Integration - Add access to many shopping carts to your website for online ordering. Works with many of the shopping carts on the market, way more than we can list. If you have compatibility questions please call the office.

** QuickClick - QuickClick is NMI's proprietary shopping cart solution developed for merchants who are looking for an affordable method of linking their web site to the payment gateway. QuickClick is a secure and reliable solution that is very simple to use.

***Customer Vault – Store cardholder data on the gateway for recurring billing and instances where you will need to charge a repeat customer. Don't have to worry about storing any credit card numbers in your software or at your office.

****SYNCPAY (Quickbooks Interface) – With QuickBooks® SYNCPAY, merchants can process the gateway transaction, create an appropriate accounting entry and automatically mark the transaction as paid without ever leaving the QuickBooks® environment. Key features are: Works directly within QuickBooks®, Allows merchants to pay invoices, generates sales receipts, process batch transactions, generate batch reports, allows multiple payments against open invoices, supports card present transactions, supports end-to-end encryption and compatible with QuickBooks® Pro, Premier and Enterprise.

*****ACH Processing – Give merchants the ability to draft their customers bank account by adding this feature to their Virtual Terminal. This is a separate agreement from credit card service and the following fees will be drafted directly from their bank account:

Electronic Check Setup Fee	\$55.00
Electronic Check Per Transaction Fee	\$0.25
Electronic Check Discount Rate	0.25%
Electronic Check Min. Discount Fee	\$0.00
Electronic Check Return Fee	\$5.00
Electronic Check ACH NOC	\$5.00
Electronic Check Late Return Fee	\$12.00
